Dr. Carol A. Couch
Director, Georgia Environmental Protection Division
Georgia Department of Natural Resources
2 Martin Luther King Jr. Drive
Suite 1152 East Tower
Atlanta, GA 30334

Dear Dr. Couch,

I am a life long resident of Washington County with many family and friends living and working in this county. Therefore the overall impact of a facility such as Plant Washington is extremely important to me.

I have read and researched the pros and cons concerning a coal-fired power plant and believe it will be safe and that our environment will be protected. I am confident that your agency will oversee and protect the citizens of our county.

We as a county are at crossroads in our economic life. The tax base and jobs that Plant Washington could bring to our area would be a true blessing to our region. In talking to many residents of Washington County it is apparent that the vast majority of residents are in support of Plant Washington. Unfortunately, we often only hear the squeaky wheels that are opposed.

I ask that you take this letter as vote of total support for Plant Washington to be built near Sandersville, Georgia.

Sincerely,

A handwritten signature in cursive script that reads "Joann L. Milam".
